# Biographical/Historical Information

On 29 March 1877, the General Assembly passed an act creating the Department of Agriculture, Mining, and Manufacturing to compile a geological handbook, analyze soils and fertilizers, dispense information to agriculturists in the state, and distribute seeds provided by the federal government. The Board of Agriculture was established by the General Assembly on March 5, 1888, to manage the department. The name of the department was changed to the Department of Agriculture and Immigration by an act passed on 25 February 1908, and the agency was given the additional mission of promoting the immigration of farmers into the state. On 27 March 1914, the General Assembly made the commissioner of the department a member of the Convict Lime Grinding Board. This board, which supervised the employment of state penitentiary convicts at state lime grinding plants, was abolished by the state government reorganization act passed by the General Assembly on 18 April 1927, and its duties were transferred to the Board of Agriculture and Immigration.

A major shift in focus occurred when, in a statewide referendum held on 1 November 1966, the voters approved a proposed constitutional amendment passed by the General Assembly on March 11 that changed the name of the department to the Department of Agriculture and Commerce. The governor issued a proclamation of the name change on 30 November 1966, and on 4 March 1971, the General Assembly passed an act codifying the change. The name of the department was changed to the Department of Agriculture and Consumer Services by an act passed by the General Assembly on 24 March 1978.

Past Commissioners include: S. Mason Carbaugh, 1972-1991; Clinton V. Turner, 1991-1994; and J. Carlton Courter, III, 1994-2006.

# Scope and Content

The Virginia Department of Agriculture and Consumer Services, Records, are housed in 112 boxes.
