## Descriptive Summary

### Unit ID

Ms.1985.001

### Unit Date

1941-1998

### Unit Date

1941-1982

### Language

The materials in the collection are in English.

### Abstract

The Christopher C. Kraft Papers consists of approximately 28 cu. ft. of manuscripts, particularly NACA and NASA reports and documents, meeting notes and agendas, and research materials. A later donation contains the manuscript for 2001 Kraft's autobiography. Kraft (1924-2019) graduated from Virginia Polytechnic Institute (Virginia Tech) in 1944 and went on to become NASA's first flight director and the director of the Johnson Space Center.

### Creator

Kraft, Christopher C. (Christopher Columbus), 1924-2019

**Extent**

28 Cubic Feet 27 boxes; 6 folders [plus 2 boxes of duplicate materials]

**Physical Location**

**Please note:** The majority of this collection is in off-site storage and requires 2-3 days notice for retrieval. Oversize materials are on-site. Please contact Special Collections and University Archives for more information.

**Repository**

## Administrative Information

**Conditions Governing Access**

The collection is open for research.

**Conditions Governing Reproduction and Use**

The copyright status of this collection is unknown. Copyright restrictions may apply. Contact Special Collections and University Archives for assistance in determining the use of these materials. Reproduction or digitization of materials for personal or research use can be requested using our reproduction/digitization form: <http://bit.ly/scuareproduction>. Reproduction or digitization of materials for publication or exhibit use can be requested using our publication/exhibition form: <http://bit.ly/scuapublication>. Please contact Special Collections and University Archives ([specref@vt.edu](mailto:specref@vt.edu) or 540-231-6308) if you need assistance with forms or to submit a completed form.

**Source of Acquisition**

The majority of the collection was given to Newman Library in November 1985 and formally donated in April 1986. 14 Apollo photographs were donated in March 1971 and merged with the rest of the collection after its donation in 1985/1986. Additional materials were donated to Special Collections in December 2002 and January 2003.

**Processing Information**

Initial processing, arrangement, and description of the Christopher C. Kraft Papers was completed in the late 1980s. During 2010 and 2011, materials were re-folded and oversize items were removed from boxes. The existing folder list was revised against the collection contents, and a new finding aid was created.

**Preferred Citation**

Researchers wishing to cite this collection should include the following information: [identification of item], [box], [folder], Christopher C. Kraft Papers, Ms1985-001, Special Collections and University Archives, Virginia Tech, Blacksburg, Va.

## Biographical Note

Christopher Columbus Kraft, Jr. was born on February 28, 1924, in Phoebus, Virginia. He received his BS degree in aeronautical engineering from Virginia Polytechnic Institute (Virginia Tech) in December 1944.

Kraft joined the Langley Aeronautical Laboratory of the National Advisory Committee for Aeronautics (NACA) in 1945 as a flight engineer. In October 1958, he was selected as one of the original members of the National Aeronautics and Space Administration (NASA) Space Task Group, which had been established to manage Project Mercury, the nation's first project to put a man in space. In the early phases of Project Mercury, Kraft was a prime contributor to the development of many of the basic mission and flight control techniques used in manned space flight. He personally served as Flight Director for all the Mercury missions and many of the Gemini missions. During the latter phase of Project Mercury, he directed the design and implementation of the Mission Control Center at the Johnson Space Center (originally the Manned Spacecraft Center) in Houston, from which all of NASA's manned space flights have been conducted. Kraft was named deputy director of the Manned Spacecraft Center in 1970, and later director in 1972. He retired from NASA in 1982 and subsequently served as a consultant for various corporations. In 2001, Kraft's autobiography, *Flight: My Life in Mission Control* was published.

Kraft has been the recipient of a number of awards and honors, including three honorary doctorates (Indiana Institute of Technology, 1966; St. Louis University, 1967; and Villanova University, 1979); the NASA Outstanding Leadership Medal, 1963; the NASA Distinguished Service Medal, 1969; the American Astronautical Society's Space Flight Award, 1970; and the Ambassador of Exploration Award, 2006. In 2011, the Johnson Space Center renamed its Mission Control Center the Christopher C. Kraft Jr. Mission Control Center in his honor.

Kraft died on July 22, 2019, at the age of 95.

## Scope and Content

The Christopher C. Kraft Papers consists of approximately 28 cu. ft. of manuscripts, particularly NACA and NASA reports and documents, meeting notes and agendas, and research materials. A later donation contains the manuscript for Kraft's autobiography.

From Kraft's early years at Langley Flight Research Division, the collection includes notes, calculations, and drawings for many projects (testing the stability and control of the X-1, P-47 Thunderbolt, and P-51 H Mustang airplanes, for example). It also includes calculations and draft reports on the gust-alleviation system designed by Kraft and then-division head, William Hewitt Phillips.

The collection contains heavily-annotated editions of "Mission Rules" for Project Mercury, extensive files of post-launch reports and astronaut debriefing transcripts from Kraft's early NASA years (1958-1970), as well as correspondence, notes, and memoranda. Materials from Kraft's later years at NASA (1970-1982) include professional notes, detailing meetings and telephone conversations, plus meeting agendas, memos, and other work documents.

## Arrangement

For the most part, the collection is arranged in chronological order. Whenever the exact date is unknown, materials are filed at the end of the known month or year. Oversize drawings, sketches, blueprints, calculations, graphs, and charts were removed from the collection and are arranged in their original order in folders. Oversize newspaper clippings, for preservation purposes, are in a separate oversize folder.
