Administrative History

Virginia Tech's roots go back to 1851, when the Olin and Preston Institute opened in Blacksburg, Virginia. After closing during the American Civil War, it chartered as a college called the Preston and Olin Institute in 1869.

In 1872, Virginia Agricultural and Mechanical College (VAMC) was established as a land-grant institute by the Commonwealth of Virginia on the site of the Preston and Olin Institute. The first 12 students were awarded non-degree diplomas in 1875, and the first Bachelor of Arts degrees were awarded in 1883. The first Bachelor of and Master of Science degrees were awarded in 1892. The first Doctorate of Philosophy degree was awarded in 1942.

In 1895, the university was renamed Virginia Agricultural and Mechanical College and Polytechnic Institute (VAMC&PI), and in 1944 it became Virginia Polytechnic Institute (VPI). At this time, it merged with Radford College, which became the Women's Division of VPI, until the partnership dissolved in 1964. Finally, the university became Virginia Polytechnic Institute and State University (VPI&SU) in 1970. Nicknames and common acronyms over the years include VAMC, VAMC&PI, VPI, VA Tech, VT, Tech, VPI&SU, and Virginia Tech.

Biographical Note

William Sydnor Adkisson (1857-1935) of Halifax, Virginia, graduated from Virginia Agricultural and Mechanical College in 1877. He later operated his own farm.
