None

Historical and Biographical Information

With the establishment of the Virginia Collection of the Fairfax County Public Library in the mid-1950s, Virginia Room librarians have continuously collected items relating to Fairfax County individuals. The Biography Files consist of two file cabinets of folders arranged alphabetically by the surname of the family or the individual. The files include news clippings, articles, obituaries, genealogies, photocopies, correspondence, unpublished reports and family histories, and copies of historical documents. Occasionally, approximate birth and death dates and occupation for individuals have been included in the folder title. The files act as a starting point for researchers seeking local family history or biographical information on Fairfax County individuals. Library staff is continuously adding to these files.
