Profile Description

Creation: Machine-readable finding aid.

Language Usage: Description is in English

Revision Description

2013-11-21 Converted to schema conforming EAD by dtd2schema.vh.xsl.

Descriptive Summary

Accession number

vifgm00071

Language

English

Physical Characteristics

2 containers, 1.75 cubic feet (2.625 linear feet)

Repository

Special Collections and Archives, George Mason University

Administrative Information

Access Restrictions

Collection is open to research.

Use Restrictions

There are no restrictions.

Acquisition Information

Material was acquired from Katryn Miller in 2005.

Preferred Citation

Kathryn Miller Papers, Special Collections and Archives, George Mason University Libraries

Biographical/Historical Information

The collection contains materials pertaining to the Loudoun Station development in Loudoun County, Virginia. Loudoun Station is a mixed-use town center development on approximately 50 acres located adjacent to the Dulles Greenway in Ashburn. It comprises office space, pedestrian-friendly retail establishments, and multi-family residences. A transit-oriented development, it will eventually combine office, residential, hotel, restaurant, retail and civic uses, all adjacent to the final METRO station on the planned extension of METRO's Silver Line.

Scope and Content

Collection details the early developing stages of the Loudoun Station project. Collection comprises correspondence, reports, zoning materials, maps, and design materials.

Arrangement

Collection is arranged according to subject.
