This collection may contain materials with sensitive or confidential information that is protected under federal or state right to privacy laws and regulations. Researchers are advised that the disclosure of certain information pertaining to identifiable living individuals represented in this collection without the consent of those individuals may have legal ramifications (e.g. cause of action under common law for invasion of privacy may arise if facts concerning and individual's private life are published that would be deemed highly offensive to a reasonable person) for which the College assumes no responsibility.
