Historical Note

From <https://www.wlu.edu/about-w-l/leadership/board-of-trustees>:

In accord with the University's charter, bylaws, mission statement, and other institutional plans, the Board of Trustees of Washington and Lee University serves as ultimate fiduciary by its oversight of institutional affairs and is responsible for the governance and management of the institution. The board is expected to execute its responsibilities of oversight of the University's operations through the activities of its standing and ad hoc committees and during the plenary sessions of the full Board of Trustees during its three annual meetings.

Scope and Contents

The Board of Trustees records contain minutes, agendas, correspondence, reports, subject files, committee files, recommendations, resolutions, and the oath book.

The first series is the Minute Books. The first minute book dates to 1793. Someone, presumably the secretary, transcribed the earliest minutes into this volume. The subsequent volumes became the item of record for recording meeting minutes.

The second series contains other records of the Board, including correspondence, resolutions, reports, and financial documentations. Subjects vary but include items related to the overall business of running the university, faculty affairs, student affairs, alumni affairs, and the local community. The correspondence recipients vary and sometimes include university presidents. This series is divided into sub-series by decade when appropriate. This series keeps the order already established, likely by former faculty member and administrator, William W. Pusey. Pusey indexed the collection by trustee name and by subject in circa 1982. Every entry was typed onto a catalog card and can be accessed in the Special Collections and Archives reading room. Each name and subject card refers to a specific folder number. For the best interest of the researcher, it was decided to keep the sequential numbering. It should be noted here that during the time the collection was originally foldered and numbered, an oversight was made. There is no folder 485.

For reasons unknown, Faculty records and Treasurer's records were added to this collection at some point in the past. They are accounted for in the index and for that reason, and because it would throw off matching an index card to a folder number, they were left in the collection in the order in which they were added. The Faculty records series contains primarily correspondence. The Treasurer's records contain correspondence and financial documents.

One of the highlights of the collection is the letter sent by George Washington to the Board thanking them for changing the name of Liberty Hall Academy in his honor for his gift of James River Canal Company stock. The original stock indenture is also in the Board records.

At some time in the past, several items written by President Robert E. Lee were removed from the Board and placed into the Robert E. Lee family papers (WLU Coll. 0064). His first annual report to the Board (1866) has been placed back with the collection. In time, the others will be added back as well. Until then, researchers should know to consult the Lee family papers for items associated with Lee's time as president.

Processing Information

The first page states that "This book contains a regular account of the Academy of Liberty Hall from its origin. Taken from the Minutes of the Presbytery of Hanover and the Synod of Virginia...These Records were begun January 1793 By order of the Board of Trustees." The card catalog cards created by W. W. Pusey use the creation date of 1774 for this volume. However, given that those earliest minutes were transcribed into this volume in 1793, that is the date used for the finding aid as it accurately reflects the creation date of the volume.
