Administrative Information

Conditions Governing Access

This collection is open for research during scheduled appointments. Researchers must complete the Washington Library's Special Collections and Archives Registration Form before access is provided. The library reserves the right to restrict access to certain items for preservation purposes.

Preferred Citation

[Name and date of item], Historical Photograph Collection, [Folder], Photo Archives of the Mount Vernon Ladies' Association, The George Washington Presidential Library [hereafter Washington Library], Mount Vernon, Virginia.

Scope and Contents

The Historical Photograph Collection is largely comprised of materials created by or for the Mount Vernon Ladies' Association. Photographers primarily include staff members and contract photographers. The collection spans the 1930s to the 2000s and includes analog material made up of a variety of sizes of film negatives providing a visual history of the Mansion, outbuildings, tombs, grounds, events, visitors, collection objects, personnel, restoration, and changes throughout the estate.

Custodial History

Items in this collection were either created by or under contract by the Mount Vernon Ladies' Association. Materials are added to the collection as they are created or processed. For additional information please contact the Manager of Visual Resources.

Arrangement

The Mount Vernon Black and White Film Collection is an internal collection primarily organized in chronological order. Items are assigned an identification number based on the time the film material enters the collection. The physical arrangement is organized by material size and format.

BW-6326 - Engraving - George Washington Esqr. General and Commander in Chief of the Continental Army in America. ; From Scott Collection, [SC-3]; Done from an original Drawn from Life by Alexr. Campbell of Williamsburg. (Published by C. Shepherd, 1775) One of the several fictitious portraits of Washington that were circulated in England in the early years of the Revolution. It is believed that the artist, "Alexander Campbell," was also a fabrication of the publisher. When Washington received a copy from his aide, Joseph Reed, he wrote, "Mrs. Washington desires I well thank you for the picture you sent her. Mr. Campbell, whom I never saw to my knowledge, has made a very formidable figure of the Commander in Chief, giving him a sufficient portion of terror in his countenance." (13-3/4" X 9-3/4" image)

BW-3313 - Reconstructed wine cooler - from fragments acquired from Agnes Peter. This cooler was built in 1952 by Wilfred Nietzey of the Mount Vernon carpentry shop, based on evidence from the original parts and images of similar period pieces. The only elements of the piece that date to the eighteenth-century are the two staves with the lion's mask handles and the brass bands. One of the lion's masks was missing a handle. In an effort to give the cooler a uniform appearance, the materials used to fill out the rest of the piece were salvaged from old furniture of unspecified date, which had no relation to the original parts. Object number [W-1059]
