Biographical/Historical Information

Harry Walter Roberts was born in Philadelphia, Pennsylvania to Wallace and Frances (Jackson) Roberts and grew up in Berlin, New Jersey. After completing his secondary education, he matriculated at Wilberforce University, where he earned an A.B. Magna Cum Laude, and the B.D. degree from Yale University. He also studied at the London School of Economics, where he earned the M.A. with distinction in 1935.

With the completion of his M.A. in 1935, Harry Roberts joined the faculty of what was the Virginia State College for Negroes, now Virginia State University. During his thirty-four years at Virginia State he established the Department of Sociology and was the founder of the Alpha Chapter of Alpha Kappa Delta, and the National Sociology Honor Society. He also continued his academic studies and earned from Yale University in 1942, a Ph.D. degree.

Roberts was a member of a number of professional organizations far too numerous to cite here. In many of these organizations he held elected offices. In addition, he worked with a number of groups and associations in the academic arena.

Dr. Roberts was an authority on rural Virginia Blacks and rural Baptist churches and conducted extensive research in there area, some of which were done in cooperation with Virginia Polytechnic Institute (and State University). His works have been published in the American Journal of Sociology, Journal of Negro Education, the Journal of Social Science Teachers, Phi Delta Kappa, the Quarterly Review of Higher Education Among Negroes, Social Forces, Social Problems, Rural Sociology, Virginia State University Gazette, and the Virginia Teachers Bulletin.

Scope and Content

Roberts like many other members of the faculty at Virginia State was both a scholar and a social and political activist. As a scholar Roberts was a prodigious investigator of African American life and culture in rural Virginia. He also produced a number of scholarly studies, which examined the problems of race relations in the United States. Harry Roberts was also active in a number of activities, which attempted to bring about social, economic, and political change. He maintained a life long relationship with Jerome Davis who he met while a student at Yale University. In the 1960's he joined Davis on a trip to the Soviet Union, which raised local concerns about Roberts politics. In addition Roberts attempted to form an alliance of local ministers in Petersburg who would commit to bringing about peaceful integration in Petersburg. Harry Roberts was a scholar, and an ordained minister in the African Methodist Episcopal Church. He was also a believer in the social gospel. The Roberts papers document his activities not only as a scholar but also a social and political activist. The Roberts papers are a window into a time lost. Anyone interested in the African American history in the rural life in Virginia should seek the papers of Harry Roberts
