Scope and Contents

Series II in Boxes 12 - 16 covers the same time period and were numbered (1 - 372 with many gaps) in the law office. This numerical arrangement is also roughly chronological. Many of these files contain one or two pieces of correspondence about relatively simple matters, although the contents of some of them relate to cases in the other series. Because Collins' various groupings for his files have been preserved, researchers will benefit from a careful reading of the box list when trying to follow a particular case.
