## Administrative Information

**Conditions Governing Access**

The records of the Claude Moore Health Sciences Library are open to researchers, except where it is noted. Decisions to close records to research are made in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the Family Educational Rights and Privacy Act of 1974 (FERPA), the Virginia Freedom of Information Act (VAFOIA), the policies of the University of Virginia, and other relevant laws, regulations, or policies.

**Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to records created by University employees while acting within the scope of their employment, except scholarly and academic works. Copyright ownership for other materials in this collection varies.

## Biographical / Historical

Between 1826 and 1929, the University of Virginia's collection of medical books and journals were kept with the general library collections in the Rotunda. In 1929, the University moved the collections to the new Medical Library inside the recently-constructed Medical School Building.

Between 1929 and 1962, a medical librarian with a small staff of student and clerical workers stewarded the library's collections. The Medical Library at this time, although physically separate from the rest of the University's libraries, was administered as part of the central University library system with oversight from School of Medicine faculty serving on the Medical Library Committee. In addition to the management of collections, the medical librarians in this era began to curate exhibits and provide instruction. Only a few of the medical librarians who served in this period had professional library training.

In 1962, Wilhelm Moll was appointed the first Director of the Medical Library. During his tenure, Moll oversaw the radical transformation of a small branch library into an independent research library. The full-time library staff expanded from 4 to 30, the University built a new library building over Jefferson Park Avenue, the nursing and medical libraries merged to form the Health Sciences Library, a history of medicine program was founded, and the library began to adopt digital technologies.

After Moll's death in 1979, the University appointed Terry Thorkildsen as the Director of the Claude Moore Health Sciences Library. Thorkildsen and his successors Linda Watson (1990-2005) and Gretchen Arnold (2005-present) led the library during an era when revolutionary advances in digital technologies (e.g. the Internet, personal computers, databases) presented new challenges and opportunities for the Library.

September 1826: The University of Virginia Library opens in the Rotunda and it includes a collection of medical books. 1911: The University Library's entire collection of medical books and journals are gathered together and moved to the basement of the Rotunda. September 13, 1915: Richard Henry Whitehead, Dean of the School of Medicine, creates the Medical Library Committee. 1919-June 1929: Ella Watson Johnson serves as the Medical Librarian. June 1929: The Medical Library moves from the basement of the Rotunda to its own space in the new Medical School Building, the Medical Library remains a department of the central University Library System. June 1929-September 1929: Margaret Otto serves as the Medical Librarian. 1929-

1931: Anne Ashhurst Gwathmey serves as the Medical Librarian. 1931-1934: Caroline Hill Davis serves as the Medical Librarian. March 1934-June 1934: Dora Mitchell Brown serves as the Medical Librarian. 1934-1936: Miriam Thomas Buchanan serves as the Medical Librarian. 1935: The Medical Library institutes its first orientation for first year medical students. 1936-1943: Anne Lewis Morris serves as the Medical Librarian. 1943-1944: Mary Elizabeth Mayo serves as the Medical Librarian. 1944-1947: Mabel Cook Wyllie serves as the Medical Librarian. 1945-1949: The Nursing Library is placed under the Supervision of the Medical Librarian until the appointment of a clerk to manage the Nursing collection. 1947-1962: Elizabeth Frances Adkins serves as the Medical Librarian. September 1962: Wilhelm Moll is appointed the Director of the Medical Library. 1962-1963: As the result of administrative reorganizations during this period, the Medical Library is separated from the central University Library system and placed under the control of the School of Medicine. November 1970: Librarians conduct the first online searches of a database at the University of Virginia Medical Library using the experimental AIM-TWX service developed by the National Library of Medicine's Lister Hill National Center for Biomedical Communications. November 1971: Librarians begin using the National Library of Medicine's MEDLINE system to conduct online searches for patrons. August 1975: The Medical Library and Nursing Library are merged into the Health Sciences Library and Information Center and moved into a new building that spans over Jefferson Park Avenue. Wilhelm Moll is made the Director of the Health Sciences Library. April 1976: The Health Sciences Library is formally dedicated and named after Claude Moore, an alumnus of and donor to the University of Virginia. 1979: Terry Thorkildsen is appointed the Director of the Claude Moore Health Sciences Library. 1989: The library card catalog is digitized and made available through computer terminals. 1990: Linda Watson is appointed the Director of the Claude Moore Health Sciences Library. 2005: Gretchen Arnold is appointed the interim Director of the Claude Moore Health Sciences Library and is then made Director in 2007. 2022: Bart Ragon is appointed the Director of the Claude Moore Health Sciences Library.

## Scope and Contents

This collection consists of permanent and historically significant institutional records created by the University of Virginia Health Sciences Library and the antecedent Medical Library. These records include, but are not limited to: annual reports, planning documents, newsletters, online exhibits, blogs, social media content, conference programs, department histories, committee records, and library-sponsored lecture materials.

## Keywords

University of Virginia

## Arrangement

Records are generally organized according to the records retention and disposition schedules series maintained by the Library of Virginia (LVA). When necessary, additional subdivisions have been created for materials that do not have clear equivalents in the LVA resources.

## Description of Subordinate Components

### Annual reports

**Unit ID** RG 17-4-2

**Unit ID** [Archival Resource Key](#)

**Unit ID** [Previous Archival Resource Key](#)

**Unit ID** [Previous Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45366

**Unit Date** 1942-2022

#### Conditions Governing Access

The annual reports are open to research.

#### Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to the annual reports in this series.

#### Scope and Contents

This series consists of annual reports produced by the Medical Library (1929-1975), the Health Sciences Library (1975-Present), and the Information Sciences Council (1990-1996). Annual reports for the Health Sciences Library are missing from this collection for the period from 2006 to the present. Also, the annual reports for the Medical Library are missing from this collections for the period from 1929 to 1942. It is

unclear whether the Medical and Health Sciences libraries wrote reports for the years.

### **Accruals**

The annual reports of the Health Sciences Library are scheduled for permanent retention. There will be accruals to this series if the Health Sciences Library resumes the creation of annual reports.

### **Arrangement**

Annual reports are arranged into 3 subseries: Medical Library, Health Sciences Library, and Information Sciences Council. The subseries are arranged chronologically. Inside the subseries annual reports are placed into files that are arranged chronologically.

## **Medical Library**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/174572

**Unit Date** 1942-1975

### **Scope and Contents**

The annual reports of the Medical Library contain comprehensive descriptions of the annual activities of the Medical Library. The Medical Library's annual reports from 1929 to 1942 are missing from this collection. It is not known if the reports were ever written by the library.

## Correspondence and subject files of the library director

**Unit ID** RG 17-4-4

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45367

**Unit Date** 1941-2013

### Conditions Governing Access

These records are open to research.

### Conditions Governing Use

The Rector and Visitors of the University of Virginia owns the copyright to records in this series that were created by the library directors while they were acting within the scope of their position, except scholarly and academic works. Copyright ownership for other materials in this series varies.

### Scope and Contents

This series consists of correspondence and subject files that were created and assembled by the directors of the Health Sciences Library while carrying out the responsibilities of their position.

### Accruals

The correspondence and subject files of the Health Sciences Library director are not scheduled for permanent retention and, in the past, have been transferred to the archives on an irregular basis. No further accruals of this material is expected.

### Arrangement

The correspondence and subject files are arranged into subseries according to the library director who created them. The subseries are then arranged chronologically by the date that each director began his or her term in this position. Beginning and end dates of the directors' terms are given after his or her name in the subseries title.

### **Conditions Governing Access**

The planning documents and reports are open to research.

### **Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to the planning documents and reports created by University employees while acting within the scope of their employment. Copyright ownership for other materials in this series varies.

### **Scope and Contents**

The records in this series document the planning of historically significant administrative initiatives, purchases, construction, and events at the Health Sciences Library.

### **Accruals**

Historically significant planning documents and reports are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a document or report is historically significant. Accruals to this series are expected.

### **Arrangement**

In this series, a file is created for each planning report and its associated documents. The files are arranged chronologically by the date of creation for the materials they contain.

**Unit Date** 1848-2010

**Unit Date** 1976-2010

### Conditions Governing Access

The photographs and negatives are open to research.

### Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to images created by University employees while acting within the scope of their employment. Copyright ownership for other materials in this series varies.

### Scope and Contents

This series consists of digital and analog images that show the history and collections of the Health Sciences Library. Image formats in this series include, but are not limited to, photographic prints, film negatives, jpeg files, tiff files, 35mm film slides, CDs or other media containing digital images. The series does not include official identification photographs for faculty, students, and staff.

### Accruals

Historically significant photographs and negatives are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a photograph or negative is historically significant. Accruals to this series are expected.

### Arrangement

The photographs and negatives are arranged into subseries by subject. The subseries are then arranged alphabetically by title. The arrangements of the files in the subseries vary.

## Artifacts and portraits

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173089

### Scope and Contents

This subseries contains images of artifacts in the collections of the Health Sciences Library.

### Arrangement

The photographs and negatives of library artifacts are arranged alphabetically according to the name of the artifact shown.

### Portrait of Robley Dungleison

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173090

**Unit Date** 1848

**Photographs** 6 (box)

**Container** 17 (folder)

### **Scope and Contents**

Photo was sent to Terry Thorkildson from the Area Health Education Centers Program Eastern Virginia Medical Authority

## **Public relations files**

**Unit ID** RG-17-4-10

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45374

**Unit Date** 1963-2014

### **Conditions Governing Access**

The public relations files are open to research.

### **Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to media created by University employees while acting within the scope of their employment. Copyright ownership for other materials in this series varies.

## Scope and Contents

This series contains historically significant press releases, visual aids, clippings, and other items that record information about the Library that were produced for or by the news media.

## Accruals

Public relations files are scheduled for permanent retention in the archives. These records are generally created by the University's marketing and communications departments and they are filed in the records groups associated with those units. However, the library does occasionally create its own public relations files that we expect to add to this series.

## Arrangement

The public relations files are arranged into subseries according to types of materials (e.g. clippings collections and press releases). The subseries are then arranged alphabetically. The files in the subseries are arranged chronologically.

## News clippings

**Unit ID** RG 17-4-11

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/59807

**Unit Date** 1962-2025

**Conditions Governing Access**

The publications are open to research.

**Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to publications created by University employees while acting within the scope of their employment, except scholarly and academic works. Copyright ownership for other materials in this series varies.

**Scope and Contents**

This series consists of publications produced by the Health Sciences Library for public distribution or general internal distribution. Publications include, but are not limited to, magazines, journals, monographs, newsletters, weblogs, weekly announcements, online publications, marketing materials, and patient education resources. This series may contain both print and digital publications.

**Accruals**

The publications of the Health Sciences Library are scheduled for permanent retention in the archives. Much of the content that the Library made available through publications is now made available on various online platforms. It is likely that accruals to this series will be infrequent.

**Arrangement**

The publications are arranged into subseries according to types of materials (e.g. journals and magazines)

The publications are arranged into subseries according to types of materials (e.g. journals and magazines, newsletters, patient education resources). The subseries are then arranged alphabetically. The arrangements of the files in the subseries vary.

## Collection catalogs

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/62619

### Scope and Contents

The materials in this subseries were produced to guide the use of collections housed at the Health Sciences Library.

## Newsletters

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/62623

### Conditions Governing Access

There are no restrictions on access to the newsletters in this subseries.

### Conditions Governing Use

The University of Virginia owns the copyrights to publications produced by the Health Sciences Library. Other copyright restrictions may apply to some materials.

### Scope and Contents

This subseries consists of digital and print newsletters that provide information about the activities of the Health Sciences Library.

### Arrangement

The newsletters are arranged alphabetically by title.

## A Journey Through Time

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/81479

**Unit Date** 1996-2000

### Scope and Contents

A "scrapbook" of Library milestones and appropriate photographs for each medical and nursing graduating class celebrating its reunion in a particular year. The print series was discontinued after 2000, but additional Journey Through Time content is available online through the Historical Collections web exhibits.

## Conditions Governing Access

The social media files are open to researchers.

## Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright for social media content (e.g. posts, photographs) created by University employees while acting within the scope of their employment, except scholarly and academic works. The organizations that own the social media platforms might also hold licenses to all of the content posted by University of Virginia employees. Copyright ownership varies for other content that has been posted on the Library's social media platforms and archived here.

## Scope and Contents

This series contains social media content that has been produced by the Health Sciences Library for platforms like Facebook, Instagram, and Twitter.

## Accruals

Annually, data is downloaded from the Library's active social media sites and added to this collection.

## Physical Characteristics and Technical Requirements

When the Claude Moore Health Sciences Library downloads content from a social media platform, the Library preserves all of the original files (e.g. jpeg files, html files, json files) from the capture.

Patrons may contact Historical Collections staff at the Library to request copies of files containing social media content. The files may be sent to the patron for remote viewing or they may be viewed in the Historical Collections reading room. The Library will provide patrons in the reading room with software to view the files. Patrons who request to view the files remotely are responsible for obtaining their own copies of the hardware and software required to render the files.

## Arrangement

The social media content is arranged into files alphabetically by title.

Historical Collections and Services-CMHSL Facebook page captured on 2019-06-27

### Digital Archival Object

Historical Collections and Services-CMHSL Facebook archive 2010-2014

## Scope and Contents

The staff of the Health Sciences Library's Historical Collections and Services department maintains and contributes content to this Facebook page. Many posts and photographs on the page relate to the Department's services, collections, and events. Other posts share information related to the history of the health sciences and the work of libraries, museums, and archives.

## Blogs

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/176145

**Unit Date** 2007-2019

**Language** English

## Conditions Governing Access

The blog files are open to researchers.

## Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to blogs and blog posts created by University employees while acting within the scope of their employment, except scholarly and academic works. Copyright ownership for other materials in this series varies.

## Scope and Contents

This series consists of blogs that were created by the Health Sciences Library. The files in this series were downloaded from the Internet by Library staff. Content in the blogs that are accessed through a link outside of the blog's parent directory (e.g. external YouTube videos, external web pages) are not

downloaded and archived in this series.

### **Accruals**

Copies of each existing blog are captured every year and added to the collection.

### **Physical Characteristics and Technical Requirements**

When the Claude Moore Health Sciences Library captures a copy of a blog, the Library preserves all of the its original files (e.g. jpeg files, html files) as well as an aggregated web archive file (warc). Both a directory containing the original files and the warc file are bundled together into a single digital object.

Patrons may contact Historical Collections staff at the Library to request copies of blog files. The files may be sent to the patron for remote viewing or they may be viewed in the Historical Collections reading room. The Library will provide patrons in the reading room with software to view the files. Patrons who request to view the files remotely are responsible for obtaining their own copies of the hardware and software required to render the files.

### **Arrangement**

Blogs are arranged into files alphabetically by title.

**Unit ID** [Archival Resource Key](#)

**Unit ID** [Previous Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45381

**Unit Date** 1979-2015

### **Conditions Governing Access**

The administrative organization and structure files are open to research.

### **Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to records created by University employees while acting within the scope of their employment. Copyright ownership for other materials in this series varies.

### **Scope and Contents**

The records in this series document the organizational structure of the Health Sciences Library. It also contains records that document administrative reorganizations of the Library. These materials include, but are not limited to, organizational charts and reports.

### **Accruals**

The organizational charts of the Health Sciences Library are scheduled for permanent retention in the archives. Besides the charts, only historically significant records document administrative structure are retained in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether one of these records is historically significant. Accruals to this series are expected to occur occasionally.

### **Arrangement**

Files in this series are arranged chronologically according to the date of their creation.

**Unit ID** RG 17-4-19

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45383

**Unit Date** 1961-2007

### Conditions Governing Access

The policies, procedures, and handbooks are open to research.

### Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to records created by University employees while acting within the scope of their employment, except scholarly and academic work. Copyright ownership for other materials in this series varies.

### Scope and Contents

This series contains policies, procedures, and handbooks produced by the Health Sciences Library to direct and guide the conduct of its faculty, staff, and patrons. These records may also formally describe and define the relationship between the Health Sciences Library and its faculty, staff, and patrons.

### Accruals

Historically significant policies, procedures, and handbooks produced by the Health Sciences Library are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a record is historically significant. Accruals to this series are expected.

### Arrangement

The policies, procedures, and handbooks are arranged into the following subseries in this order: Staff procedures and handbooks, and Library users procedures and handbooks. The files in each subseries are arranged chronologically.

## Staff procedures and handbooks

### **Conditions Governing Access**

In accordance with the The Family Educational Rights and Privacy Act of 1974 (FERPA), the library may restrict access to student-authored materials and other protected student records in this series. Course syllabi, course announcements, and other materials produced by University faculty and staff are open to research.

### **Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to media created by University employees while acting within the scope of their employment, except scholarly and academic work. Copyright ownership for other materials in this series varies.

### **Scope and Contents**

This series contains course announcements, syllabi, notes, and other materials that document classes and workshops taught by the faculty and staff of the Health Sciences Library.

### **Accruals**

Historically significant syllabi and course materials are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a course record is historically significant. Accruals to this series are expected to occur infrequently.

### **Arrangement**

Syllabi and course materials are arranged chronologically.

**Unit ID** RG 17-4-30

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45394

**Unit Date** 1981-1997

### Conditions Governing Access

Conference programs and reports are open to research.

### Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to conference records and programs created by University employees while acting within the scope of their employment, except scholarly and academic work. Copyright ownership for other materials in this series varies.

### Scope and Contents

This series consists of programs and reports that document the history of conferences and symposia hosted by the Health Sciences Library. Programs and reports often contain the following information: lists of speakers, presentation titles, schedules of events, and lecture abstracts. The following conference records are not included in this series: registration records, financial records, organization records, attendance lists.

### Accruals

Historically significant conference programs and reports are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a program or report is historically significant. Accruals to this series are expected.

### Arrangement

Conference records and programs are arranged into files by conference title. The files are arranged chronologically by the date each conference was held. All of the instances of a reoccurring conference are gathered together into the same file. If the conference is reoccurring, it is arranged in relation to the rest of

the files according to the first instance of that conference.

### **Conditions Governing Access**

The historical and biographical files are open to research.

## Conditions Governing Use

Copyright ownership for other materials in this series varies.

## Scope and Contents

This series consists of significant material that conveys the history of the Health Sciences Library, its administration, its accomplishments, its officials or employees. Includes, but is not limited to, scrapbooks, photographs, articles, program notes and documentation of events sponsored or funded by the agency. Also included are narratives; printed, audio, or audiovisual histories; or matters of significant historical importance.

## Accruals

Significant historical and biographical materials are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a record is significant. Accruals to this series are expected to occur infrequently.

## Arrangement

Materials in this series are arranged chronologically according to the date that they were created.

## **Deci-Decennial (Fifth) Anniversary of Health Sciences Library Exhibit**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173844

**Unit Date** 1980

**Mixed Materials** 10 (box)

**Container** 20 (folder)

## **Highlights of Medical History Activities at the Claude Moore Health Sciences Library (draft)**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173735

**Unit Date** 1981

**Mixed Materials** 7 (box)

**Container** 17 (folder)

## **Health Sciences Library Exhibit, the 1950s-1990s**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173845

**Unit Date** 1991, 1993

**Mixed Materials** 10 (box)

**Container** 21 (folder)

### **Scope and Contents**

Includes many photos of the library interior and library staff. Some individuals identified. Probably an exhibit celebrating the library's 15th anniversary in 1991, but photos from 1993 are also in the folder.

## **Health Sciences Library Exhibit: 35 Years, National Medical Libraries Month, National Archives Month**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173846

**Unit Date** 2010-10

**Mixed Materials** 10 (box)

**Container** 22 (folder)

### **Scope and Contents**

Includes photos of library interiors, staff (some identified) and UVA buildings; library organization chart for 2/1995; and Library Building Funds chart, 1975.

## **Barry K. Marshall: Computer search request forms with literature search results**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173798

**Unit Date** 1990-1996

**Mixed Materials** 12 (box)

**Container** 1 (folder)

## **Library Memories by Bernard J. Oseroff, M.D.**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289859

**Unit Date** 1996-02-13

**Container** 17 (folder)

## **Other reports**

**Unit ID** RG 17-4-34

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/45398

**Unit Date** 1967-2015

### **Conditions Governing Access**

The reports in this series are open to research.

### **Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to reports created by University employees while acting within the scope of their employment. Copyright ownership for other materials in this series varies.

### **Scope and Contents**

This series consists of reports, of a historically significant nature, that do not belong to any other series of the Health Sciences Library records.

### **Accruals**

Historically significant reports are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a report is historically significant. Accruals to this series are expected to occur infrequently.

### **Arrangement**

The reports are arranged into files. The files are then arranged chronologically by their date of creation. When a report is reoccurring, all of the reports in that series are placed together in a single file.

## **Medical Library from the Librarian's Report for 1929 and recorded circulation, 1927-1931**

### **Scope and Contents**

This file includes the meeting minutes, meeting agendas, and other documentation of the Library Management Group. The members of this committee were the leaders of the Health Sciences Library. They met once a month to discuss major library initiatives, provide updates and reports about library department activities, and share other information related to the management of the Library.

## **Medical History Society of the University of Virginia**

**Unit ID** /repositories/7/archival\_objects/173781

**Unit Date** 1973-1984

**Mixed Materials** 9 (box)

**Container** 9 (folder)

### **Scope and Contents**

This file consists of the meeting minutes, bylaws, constitution, and correspondence of the Medical History Society of the University of Virginia. The Society was formed to promote the knowledge and study of the history of medicine and the health sciences at the University of Virginia. For much of its history, Wilhelm Moll led the Society. It supported the development of historical collections and services at the Health Sciences Library and founded a lecture series that became the History of the Health Sciences Lecture Series in 1984.

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/171354

**Unit Date** 1976-2025

### **Conditions Governing Access**

The awards, honors, and commemorations records are open to research.

### **Conditions Governing Use**

The Rector and Visitors of the University of Virginia own the copyright to the records in this series that were created by University employees while acting within the scope of their employment.

### **Scope and Contents**

This series consists of records that document awards, honors, and commemorations presented by the Health Sciences Library. These records may include, but are not limited to, event programs, lists of recipients, and recipient biographies.

### **Accruals**

### **Arrangement**

The awards, honors, and commemorations are arranged into files. The files are then arranged chronologically by date. When an award, honor, or commemoration is reoccurring (e.g. annually), all of the records in that series are placed together in a single file.

## **Dedication of the Health Sciences Library building**

## Lectures and presentations

**Unit ID** RG 17-4-39

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/171355

**Unit Date** 1966-2002

### Conditions Governing Access

The lecture and presentation materials are open to research.

### Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to materials in this series created by University employees while acting within the scope of their employment, except scholarly and academic work. Copyright ownership for other materials in this series varies.

### Scope and Contents

This series consists of records that document lectures and presentations sponsored by the Health Sciences Library. These records include, but are not limited to, audiovisual recordings, transcripts, announcements, handouts, and correspondence between presenters and event organizers.

### Accruals

### Arrangement

The records for stand-alone lectures and presentations are arranged into a subseries called "Single lectures and presentations". The records of lectures and presentations that belong to a program or lecture series are arranged into subseries named after the program or lecture series. Following the subseries titled "Single lectures and presentations", the remaining lecture series are arranged alphabetically by title.

Records in all of the subseries are arranged into files titled with the names of the lectures and presentations. The files are then arranged chronologically by date of creation.

## Single lectures and presentations

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/173023

### Scope and Contents

This subseries consists of records associated with standalone lectures and presentations sponsored by the Health Sciences Library.

### Arrangement

Records in this subseries are arranged into files titled with the names of the lectures and presentations. The files are then arranged chronologically by date of creation.

## "Recent Trends in the Building of Medical School Libraries" by William K. Beatty

**Unit ID** [Archival Resource Key](#)

**Unit Date** 1970-2023

## Conditions Governing Access

The exhibit records are open to research.

## Conditions Governing Use

The Rector and Visitors of the University of Virginia own the copyright to exhibit content created by University employees while acting within the scope of their employment. Copyright ownership for other materials in this series varies.

## Scope and Contents

This series consists of records that document exhibits created by the Claude Moore Health Sciences Library of an educational or promotional nature. Some records are physical, and others are archived websites crawled by the Internet Archives' Archive-It service and made accessible by their Wayback Machine.

## Accruals

Historically significant exhibit records are scheduled for permanent retention in the archives. The head of the Historical Collections and Services Department at the Health Sciences Library determines whether a record is historically significant. Accruals to this series are expected to occur infrequently.

## Arrangement

The materials are arranged into files, each file representing an exhibit. Files are arranged alphabetically by exhibit title.

## Exhibit Files

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289464

**Unit Date** 1970-2019, undated

### Scope and Contents

These materials are physical materials containing exhibit plans and designs, text, labels, and images created for physical exhibits.

## Arrangement

These files are arranged alphabetically.

### **Digital Archival Object**

Historical Collections Online Exhibits

**Extent** 21 websites

### **Scope and Contents**

This series contains web archived online exhibits created by Historical Collections and Services between 2007 and circa 2023, although some of the creation dates of the websites are questionable. These 21 exhibits were hosted on the Claude Moore Health Sciences Library website but are now available via the Internet Archives' Wayback Machine.

### **Related Materials**

Exhibit placards, text, images, curation notes, and other preparation documents may be found in folders with the same exhibit title in this records group in the sub series entitled "Exhibit Files, 1970-2019, undated."

### **Date Discrepancies**

Some exhibit pages do not have creation dates listed anywhere, but they do have copyright dates at the bottom of the page. This can be confusing in understanding what is the true date of creation.

### **Existence and Location of Originals**

Many of these online exhibits were once physical exhibits on display in the Claude Moore Health Sciences Library. Exhibit placards, text, images, curation notes, and other preparation documents may be found in folders with the same exhibit title in this records group in the sub series entitled "Exhibit Files, 1970-2019, undated."

### **Arrangement**

These items are arranged alphabetically.

## **A History of U.Va. Cancer Care**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289437

**Unit Date** 2011

### **Digital Archival Object**

History of Cancer Care Online Exhibit

### **Scope and Contents**

This online exhibit is centered on the book "A History of Cancer Care at the University of Virginia, 1901-1911." This book provides vast insight into the teamwork, dedication, collegiality, and skill—as well as luck—which was necessary for the Cancer Center to exist today. Twenty-five oral history interviews were conducted in the course of researching the book and are included with the book or may be viewed in the videos section of this website. Written by Henry K. Sharp, Ph.D. and Morton C. Wilhelm,

M.D. the Joseph Helms Farrow Professor Emeritus in Surgical Oncology, University of Virginia School of Medicine.

## **A Journey Through Time: An Online Scrapbook for University of Virginia School of Medicine and School of Nursing Alumni**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289439

**Unit Date** 2007

### **Digital Archival Object**

A Journey Through Time: An Online Scrapbook for University of Virginia School of Medicine and School of Nursing Alumni Online Exhibit

### **Scope and Contents**

This online exhibit serves as an online "scrapbook" with some of the milestones of the Claude Moore Health Sciences Library, Medical Center, and the School of Medicine and the School of Nursing. There are added appropriate photographs for each class year.

## **American Lung Association Crusade**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289443

**Unit Date** 1998-2004

### **Digital Archival Object**

The American Lung Association Crusade Online Exhibit

### **Scope and Contents**

This exhibit recounts the origin and early history of the American Lung Association. The American Lung Association of Virginia (ALAV) Collection contains personal and official correspondence, financial and legal papers, minute books, organizational and scientific reports, educational publicity, photographs, and artifacts. ALAV donated its organization's papers to the Claude Moore Health Sciences Library in 1990 and 1991 made this exhibit possible. The ALAV made an additional donation in 2009.

## **Ancient Roman Surgical Instruments**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289444

**Unit Date** 2007

### **Digital Archival Object**

Ancient Roman Surgical Instruments Online Exhibit

### **Scope and Contents**

This online exhibit presents images and summaries of the known uses of each instrument. The extant comments of medical writers from antiquity—including Oribasius, Galen, Soranus, Aetius, and the Hippocratic corpus—have provided scholars with some clues about the use of some instruments. Some instruments, such as mixing instruments and tweezers, probably had other household uses, such as the application of cosmetics and paints.

## **Early 20th Century Anatomical Wall Charts**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289445

**Unit Date** 2007

### **Digital Archival Object**

Early 20th Century Anatomical Wall Charts Online Exhibit

### **Scope and Contents**

This online exhibit was created under the direction of Joan Echtenkamp Klein, the Alvin V. and Nancy Baird Curator for Historical Collections at The Claude Moore Health Sciences Library. Hal Sharp, a Historical Collections staff member, wrote the essay giving a brief history of anatomical drawing. The exhibit was designed by Janet Pearson, Historical Collections; Bart Ragon, the Associate Director for Knowledge Integration, Research and Technology; and Paulina Vaca, Web Communications Assistant.

Emily Bowden, Historical Collections, photographed the Denoyer-Geppert Anatomy Series charts. William Crutchfield generously donated W. and A. K. Johnston's Charts of Anatomy and Physiology which were owned for 33 years by his father, Dr. William Gayle Crutchfield.

**Unit Date** 2007

#### **Digital Archival Object**

Joseph H. Farrow, M.D., 1904-1977 Online Exhibit

#### **Scope and Contents**

This exhibit was created under the direction of Joan Ectenkamp Klein, the Alvin V. and Nancy Baird Curator for Historical Collections at the Claude Moore Health Sciences Library. Dr. Morton C. Wilhelm, the Joseph Helms Farrow Professor in Surgical Oncology, wrote the essay with the editorial assistance of Janet Pearson. The web exhibit was designed by Janet Pearson, Historical Collections; Bart Ragon, the Associate Director for Knowledge Integration, Research and Technology; and Paulina Vaca, Web Communications Assistant.

### **Patients' Voices in Early 19th Century Virginia**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289450

**Unit Date** 2019-04

#### **Digital Archival Object**

Patients' Voices in Early 19th Century Virginia Online Exhibit

#### **Scope and Contents**

This online exhibit offers a look into The Papers of James Carmichael and Son, a collection held at the UVA Albert and Shirley Small Special Collections Library, and tells a story of the early nineteenth-

century inhabitants of Fredericksburg, Virginia and its surrounding rural areas.

The exhibit is organized into two content areas: the Story and the Collection. Each of these areas, as well as the Home and About sections, are represented in the tabs near the top of every page. See the site map for more detail.

The Story section sets the atmosphere for the exhibit. One can get a sense of what the practice of medicine was like for James and Edward Carmichael in the early nineteenth century by reading the essays describing the Pharmacy, the Tools of the Trade, and the Health Care of Slaves.

The Collection section houses the images of the original Carmichael letters, which are meticulously transcribed and categorized to provide access not only to the words, but to the medical conditions, treatments, and philosophies of almost two centuries past. Particularly compelling is the use of Medical Subject Headings (MeSH) to categorize the letters along with a very detailed methodology and definition of MeSH terms. Other items of interest include the daybook kept by Doctor Carmichael from 1816-1817, newspaper clippings, court records & summaries, period maps, and Virginia WPA Historical Inventory Project records. Additionally, there is an exhaustive Who's Who list of names that appeared in the letters as well as a thorough list of Places Mentioned.

## **Philip S. Hench - Walter Reed U.S. Army Yellow Fever Collection (The U.S. Army Yellow Fever Commission)**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289451

**Unit Date** 2023

### **Digital Archival Object**

U.S. Army Yellow Fever Commission Online Exhibit

### **Scope and Contents**

This online exhibit tells the story of how the U.S. Army Commission, comprised of Major Walter Reed, Dr. James Carroll, Dr. Aristides Agramonte, and Dr. Jesse Lazear, confirmed Carlos Finlay's theory about the transmission of yellow fever. By showing without a doubt that mosquitoes were the vector for yellow fever, the researchers empowered public health officials in the Americas to eradicate this devastating disease from much of the Western Hemisphere.

The exhibit is divided into three main sections. The first section, Archives, provides information about and links to the Philip S. Hench Walter Reed Yellow Fever Collection. The collection, most collected by Philip S. Hench and housed at the University of Virginia's Claude Moore Health Sciences Library, is a rich archive of materials that documents the history of the U.S. Army Yellow Fever Commission. The second section, History, tells the story of the U.S. Army Yellow Fever Commission and the impact of its findings. Finally, the third section, Resources, provides access to biographies, bibliographies, and other resources visitors may want to consult to learn more about the Commission and the history of yellow fever.

## **Physician Price Fixing in 19th Century Virginia**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289453

**Unit Date** 2011

### **Digital Archival Object**

Physician Price Fixing in 19th Century Virginia Online Exhibit

### **Scope and Contents**

This exhibit tells the story about 12 physicians practicing in Charlottesville, VA in 1848 mutually agreed to create an agreed rate of medical charges for services.

Joan Echtenkamp Klein, the Alvin V. and Nancy Baird Curator for Historical Collections & Services at The Claude Moore Health Sciences Library, University of Virginia, conceived the idea for the fee bill project and directed it. Todd L. Savitt, Ph.D., wrote the background information essay on fee bills in general and the Charlottesville fee bill in particular. He is a faculty member at East Carolina University in the Department of Bioethics & Interdisciplinary Studies. Janet Pearson wrote the introduction and the biographical sketches of the twelve signers. She gathered images and took photographs in the University of Virginia Cemetery and Columbarium and in downtown Charlottesville. She is a member of the staff of Historical Collections and Services. Sonya Coleman, also a member of the staff of Historical Collections, contributed to the design elements. David Moody, Claude Moore Health Sciences Library Webmaster, and Jason Bennett, Technology in Education Consultant, provided the programming

architecture for the Web exhibit.

## **"Ready to Do My Bit": The Personal Diary of Dr. Henry Hanson and the West Africa Yellow Fever Commission**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289454

**Unit Date** 2012

### **Digital Archival Object**

"Ready to Do My Bit": The Personal Diary of Dr. Henry Hanson and the West Africa Yellow Fever Commission Online Exhibit

### **Scope and Contents**

Joan Echtenkamp Klein, the Alvin V. and Nancy Baird Curator for Historical Collections & Services at the Claude Moore Health Sciences Library, University of Virginia, conceived the idea for the "Fever Fighters" project after the generous donation of Dr. Hanson's diary by his granddaughter, Jane H. Monroe.

Staff members at Historical Collections, Leigh Mantle, Susan Yowell, and Janet Pearson, contributed content and created the GIS Map. Caitlin Summers, a dedicated intern at Historical Collections, also provided editorial assistance in the spring of 2012.

David Moody, Library Webmaster; Mike Wilson, Information Services Specialist; and Jason Bennett, Technology Specialist, provided the programming architecture for the Web exhibit.

## **Taking the Waters: 19th Century Medicinal Springs of Virginia**

**Unit ID** [Archival Resource Key](#)

**Unit ID** /repositories/7/archival\_objects/289455

**Unit Date** 2009-2010

### **Digital Archival Object**

Taking the Waters: 19th Century Medicinal Springs of Virginia Online Exhibit

### **Scope and Contents**

This exhibit was inspired by *The Mineral Springs of Western Virginia* by William Burke, the first volume purchased by the Weaver Family Endowed Rare Book and Medical Materials Fund. Published in 1846, the book describes the setting and development of eleven springs in what are now Virginia and West Virginia. Dr. Burke, a one-time owner and resident physician at Red Sulphur Springs, remarks on the usefulness of the various mineral waters in certain diseases as well as contraindications to their use. The springs range from those that are well known today such as the White Sulphur Springs, currently the Greenbrier resort in West Virginia, to the Blue Sulphur Springs, once able to accommodate several hundred people and now represented by a lone Greek Revival pavilion in the middle of a field near Smoot, West Virginia.

This exhibit was written and organized by Janet Pearson, a member of the staff of Historical Collections and Services, under the direction of Joan Echtenkamp Klein, the Alvin V. and Nancy Baird Curator for Historical Collections at The Claude Moore Health Sciences Library, University of Virginia. Claudia Sueyras, Normajeau Hultman, and Sonya Coleman did preliminary research. Rod Martin and Victoria Meyer scanned items from Historical Collections and the Charles L. Brown Science & Engineering Library. David Moody, with the assistance of Bart Ragon, provided the programming architecture for the Web exhibit. Sonya Coleman contributed to the design elements. Special thanks has been given to the staff at the Albert and Shirley Small Special Collections Library, University of Virginia, as they retrieved dozens of documents and also to the Digital Curation Services staff for their scanning of the documents.

The Anatomical Theatre (at the University of Virginia) Online Exhibit

### **Scope and Contents**

The Anatomical Theatre at the University of Virginia online exhibit tells the story of the Theatre's

The Anatomical Theatre at the University of Virginia online exhibit tells the story of the Theatre's presence at the University for more than a century. While not included in the earliest plans of the University, the need for the Theatre became clear before the first classes were ever held. Thomas Jefferson himself drew the design which includes two floor plans, a front elevation view, and a cross section. The exhibit traces the construction and later changes to the building, its demise, and archeological investigations at the site. It also gives a glimpse of what happened inside the building and the deeds that were done to procure cadavers so that medical students could learn anatomy.

This exhibit was sparked by the interest of the late Dr. M.C. Wilhelm in the model of the Anatomical Theatre housed in Historical Collections at the University of Virginia Claude Moore Health Sciences Library. A retired surgeon and volunteer in Historical Collections, Dr. Wilhelm gathered resources and did preliminary writing. It was decided to further develop the project, and the result is this exhibit, written and organized by Janet Pearson, a Historical Collections staff member. Originally done under the direction of Joan Echtenkamp Klein, who was the Alvin V. and Nancy Baird Curator for Historical Collections until her untimely death, project support was continued under Dan Cavanaugh, who stepped into Joan's role and position.

Others associated with the University of Virginia community freely shared their ideas and research. These individuals include Garth Anderson, the Facilities Management Historian; Kirt von Daacke, Assistant Dean and Professor, College of Arts & Sciences; Louis Nelson, Professor in the Department of Architectural History and Associate Provost for Outreach; Robert Bloodgood, Professor in the School of Medicine; Benjamin Ford, Principal Investigator with Rivanna Archaeological Services, LLC; and Sonya Coleman, formerly a staff member in Historical Collections and now at the Library of Virginia. Emily Bowden, the Historical Collections Specialist, answered many technical queries as well as gave editorial assistance. Anson Parker and Jason Bennett provided the programming architecture for the Web exhibit.

The Iron Lung Online Exhibit

### **Scope and Contents**

This exhibit explores the development of the iron lung during the late nineteenth and early twentieth century and considers the reasons for its success during the height of the poliomyelitis epidemics. Andrew Sallans, Historical Collections Specialist, researched and compiled the content for the online and physical exhibits. The design of the online exhibit was conceived and executed by Steve Stedman, Webmaster for the Claude Moore Health Sciences Library.

The Plague Book Online Exhibit

### **Scope and Contents**

This online exhibit displays a digitized copy of Historical Collections and Services' rare book "Plague and Public Health in Europe, with Special Reference to Sixteenth-Century England: An Introduction to Orders thought meete by her Maiestie ..., 1578."

Anne McKeithen, Janet Pearson, and Andrew Sallans, members of the staff of Historical Collections at

The Claude Moore Health Sciences Library, compiled the material for the Plague Book exhibit under the direction of Joan Echtenkamp Klein. Joaquin Bueno designed the Web exhibit and graphics, with the programming architecture of David Moody and the assistance of Bart Ragon.

Unless otherwise noted, the images are courtesy of the Missouri Botanical Garden, © 1995-2006 Missouri Botanical Garden (<http://www.illustratedgarden.org>). They deserve special thanks for their generous permission to reproduce their exquisite illustrations. Special thanks are also given to Duane J. Osheim, Ph.D., Professor and Chair, of the Corcoran Department of History at the University of Virginia for his paper, "Plague and Public Health in Europe, with Special Reference to Sixteenth-Century England."

### **Digital Archival Object**

University of Virginia Hospital Centennial Celebration Online Exhibit

### **Scope and Contents**

In 2001 Historical Collections in the Claude Moore Health Sciences Library created an exhibit that traces the history of the first century of the Hospital in words and images. One copy of the exhibit traveled from location to location in the Health System and beyond; the other set of panels were hung in a busy hospital corridor near the main entrance where they remain today. These panels form the basis for this online exhibit which now includes the addition of a section on the first 14 years of the Hospital's second century. We hope you enjoy following the history of the growth of the University of Virginia Health System as it seeks to fulfill its longstanding vision to benefit human health and improve quality of life through patient care, research, and education.

This exhibition was prepared by Hal Sharp and Janet Pearson of the Department of Historical Collections and Services, The Claude Moore Health Sciences Library.

Vaulted Treasures: Historical Medical Books at the Claude Moore Health Sciences Library Online Exhibit

### **Scope and Contents**

This online exhibit aims to give viewers a view into more than 50 of Historical Collections and Services' most notable books and see how their authors over the years have documented their discoveries and concepts for contemporaries and for us. There are digitized versions of many of the books in the Fulltext Books section, which offers links to the scanned images of over half of these rare books.

Sara Huyser, Anne McKeithen, and Janet Pearson, members of the staff of Historical Collections at The Claude Moore Health Sciences Library, wrote and compiled the material for Vaulted Treasures under the direction of Joan Echtenkamp Klein.

Joaquin Bueno designed the Web exhibit and graphics, with the server expertise of David Moody and the assistance of Bart Ragon. Special thanks to Claudia Sueyras who scanned many of the books and Andrew Sallans who provided technical assistance.

"Very Ill!": The Many Faces of Medical Caricature in Nineteenth-Century England & France Online Exhibit

## Scope and Contents

The 37 caricatures displayed in this exhibit are divided into two groups: English and French. The English prints are predominately drawn by two of the more famous British caricaturists, James Gillray and George Cruikshank. The French caricatures include artwork by J.J. Grandville, Louis-Léopold Boilly, and Edme Jean Pignal.

Mary Wagner donated the caricatures in this exhibit to Historical Collections and Services, The Claude Moore Health Sciences Library. Her husband, the late Robert R. Wagner, M.D., collected these when he was a post-doctoral fellow at the National Institute for Medical Research in London from 1950 to 1951. Wagner was Chair of the Department of Microbiology at the University of Virginia from 1967 to 1994, and Director of the UVa Cancer Center from 1983 to 1993. Thanks to Mary Wagner's generosity, the caricatures recently have been professionally treated, preserved, and reframed. The originals are on display in Historical Collections and Services and in the Department of Microbiology in the Robert R. Wagner Conference Room. These nineteenth-century satirical prints will thus continue to delight future generations.

This exhibit was written by Sara Huyser and Janet Pearson, members of the staff of Historical Collections and Services at the Claude Moore Health Sciences Library, University of Virginia. Steve Stedman designed the Web exhibit. Special thanks to Joan Echtenkamp Klein and Andrew Sallans for their assistance.

## Walter Reed and Typhoid Fever, 1897-1911

### Digital Archival Object

Walter Reed and Typhoid Fever, 1897-1911 Online Exhibit

## Scope and Contents

Walter Reed's professional experiences with typhoid fever stand in marked contrast to his professional encounters with yellow fever. In the case of typhoid, he was more a messenger than a conqueror. Typhoid fever remained defiant during a career that oversaw the rout of yellow fever. Through a humanizing story that shows how fate brought Reed continuing frustration as well as talent and success, this exhibit seeks to render him a more accessible role model for students of medicine and history.

This exhibit was written by Noel G. Harrison, a graduate student in The Corcoran Department of History at the University of Virginia and an intern in Historical Collections and Services at the Claude Moore Health Sciences Library, University of Virginia during the fall of 2002. The Web exhibit was prepared and designed by Mike Wilson and Sara Huyser. Special thanks to Bart Ragon, Joan Echtenkamp Klein, and Hal Sharp for their assistance.

### Biographical / Historical

Historical Collections and Services was originally conceived in the 1980s by the first director of the Claude Moore Health Sciences Library, Wilhelm Moll. His vision was to create a rare book room that would house the rare books that belonged to the Medical Library. During the Jeffersonian era and up until 1929, the books belonging to the school of medicine and anatomy were housed in the Rotunda Library on Grounds. In 1929, a new Medical School Building opened. This unified all the medical departments, which had been scattered throughout the Grounds. The Medical Collection became the Medical Library, and moved into new quarters in the Medical School Building. When Alderman, now Shannon, Library was built in 1937, the books moved there until the creation of the Claude Moore Health Sciences Library in 1976. Following Dr. Moll's untimely death in 1979, Special Collections librarian Joan Echtenkamp Klein helped to make Moll's reality of a special collections department a reality. She became the curator and manager of Historical

Collections and Services, serving in that role until 2015. Dan Cavanaugh took over the role of curator and manager until 2022. Meggan Cashwell became the curator and manager in 2023 and is currently serving in that position.

### **Scope and Contents**

This series includes records related to Historical Collections and Services, the special collections and archives department of the Claude Moore Health Sciences Library. Records the public can access are related to exhibitions that were curated by staff and displayed in the library.
