Acquisition Information

The materials were transferred to the Claude Moore Health Sciences Library for preservation from the University of Virginia Health System's Marketing Communications Department.

Preferred Citation

University of Virginia Health System Marketing Communications collection, Accession #MS-68, Historical Collections, Claude Moore Health Sciences Library, University of Virginia, Charlottesville, Va.

Scope and Content

The University of Virginia Health System Marketing Communications collection consists of 5 series. Series I through Series IV contain 737 processed folders in 6 records boxes. The images in this collection were created by and/or for the University of Virginia Health System's Department of Marketing Communications to document the people, premises, and events of the UVA Health System, the UVA School of Medicine, and the UVA School of Nursing. These four series hold photographic prints, negatives, and slides, and also contain some published materials and assorted Marketing Communications papers and correspondence related to past Marketing Communications publications. The images provide a visual history of the University of Virginia's work in medical education and medical care throughout the twentieth century. Series V of the collection contains 4 boxes of unprocessed slides, image CDs, and zip disks. At the time of processing some non-Health System materials present with the original acquisition were transferred to the Albert and Shirley Small Special Collections Library and the Arthur J. Morris Law Library.

Arrangement

The records are arranged in four series with the documents within each series arranged according to subject matter and chronology. The series are:

- Series I, Departmental materials, 1907-2002
- Series II, Buildings and grounds, 1857-2006
- Series III, Events and people, 1873-2006
- Series IV, Marketing publications and related materials, 1991-2004
- Series V, Unprocessed materials

Contents List

Series I: Departmental materials, 1907-2002

Scope and Content

This series consists of images from various departments within the UVA Health System.

Arrangement

The records are arranged into sub-series according to department. Items in each subseries are arranged chronologically.
