School is limited to 20. Employed for 5 months and to receive \$300 as well as board. If pleased with performance could have the school for several years. If not pleased be transferred to another school which pays better but requires more work. Objects to plan of establishing a permanent school and getting Fan a female school. Couldn't remain in one place and longs to move twice a year so the plan would be impractical. Try to help Fan get a position as an independent teacher or assistant in an academy. Ned Randolph hires Hannah and gives \$50 for her. The servant, Lucy, is with Mary and is sufficient. Armistead sent money (\$50) for Doctor May and with the leftover was able to do laundry. Does not know what to get for Charlotte and Amey, and Hannah's hire does not pay what Mary owes at the store. Wrote

Powell last fall asking for \$50 for Bettie because she owed that at the store, but he didn't send it and so Mary had to give her bond to cover the cost. Bettie hasn't been able to repay Mary because she has only 5 music scholars and the pay is slow. Hear often from Petersburg. Charles Stainback failed and the Venables in Farmville as well. Capt. Cousin John is living in Roslin where Mr. Fields gives him \$300 and his board to teach Robert. He has a pleasant time with Miss Churcely. No knowledge of his affair with Till. Some say she discarded him because she left so suddenly for Petersburg. Mr. Garland was here 3 weeks ago and told of Aunt having the idea to propose to Fanny and Cousin John to settle in Boydton next year and open a school and that she would live with them. Cousin Louisa to go the first of the month to her mother's to stay with all her family until November. Mr. Garland said he would visit very often when left a widower. The couple lives where Buck Finch used to reside. Harriet Boyd is still engaged. Mr. Dodson is building a very comfortable house for the Bird. Send copies of the letters contained in the St. Louis Republican. They were received today addressed to Uncle Armistead. City of Mexico, October 1, 1847 - particulars of Brother William's death. He was Aide to Col. Clark Commander of 2nd Brigade of Gen: Worth's Division. Morning of the 8th, they reported to Col. McIntosh. Col. Clark had been wounded at Churabusco. Took possession against the enemy lines at dawn and were given orders to charge and drive the enemy from the position in which he occupied. Order was obeyed and we were victorious but at the expense of our best men. 1/3 of the men and 21 of 41 officers in our division were killed or wounded. Brother was shot down by a musket when within 10 feet of the enemy's 1st line of defense. Ball struck him just above the knee of his right leg (breaking it) and then he was struck down by a lance which ultimately killed him. During the long and bloody fight his sword and sash were stolen as well as the ring on his finger. He was buried the next morning in sight of the battlefield with the other 120 who fell with him. Col. Scott and Captain Merrill are buried on either side of Burwell as well as his little dog Rod who had been shot through the body during the battle, but was found licking his masters wounds before he died. 9/10th of those who had their limbs amputated have died and so it is good that Burwell's was a quick death. 8 of Burwell's regiment, more than half of those who initially came to the City of Mexico have fallen. Burwell has an ink stand sand box and wafer box which he took to the castle of Perote. He is noted as wishing his brother in Vicksburg had them because he would have appreciated their curiosities. Enclosed are those items in addition to a letter from Col. Clark to General Worth about his death. R.W. Kirkman cut locks of his hair and will send those in the trunk but enclosed are locks of hair that had been cut by the lance that killed him and were lying on the ground near him. Been with Burwell since the first of May and any further questions I would love to help. -R.W. Kirkham Adj. 5th Infantry. Tacubaga, Mexico, September 10, 1847 - excellent qualities possessed by William T. Burwell. Beloved for his suavity and irreproachable manners. -N.G. Clark Col. 5th infantry.

Pris gave birth to a son on July 30th and both are doing well. The assumption is that the child will be named Armistead. Fanny hasn't been feeling well and Mary C is worried about her. Hope Miss Lucy is better. Wishes for Fanny's mother to let her know who the minister is in Abingdon now. Powell is doing well and had another son named Armistead Thomas after the grandfathers. Blair is pleased with Texas where he is buying and selling stocks which he finds profitable, the nearest post office is in Goliad and he says the traveling agrees with him. Anne is in very bad spirits. Hugh is with Anne, but they are contemplating sending him to Uncle Landon because she does not want to send another child to Roman Catholic School. Caroline has a son born on July 8th that is named Bernard Gains after the Dr.'s father. Anna will be confined soon with her 11th child. Hopes Fanny will see Dr. Farrar and has heard from Sister Anne that while he is in Richmond he would try to see Fanny. Won't be home

until the last of June unless someone is going to Jackson. Armistead can't come and Mary C. doesn't want to burden Powell because he brought her. Pris's baby is ill with Whooping Cough. 3rd son of Brother Armistead passed away at age 5 of Dysentery after the Measles. The 3 older children had the measles at the same time but faired much more favorably. He suffered for 10 days. He was the most healthy and sprightly of the children. The baby is 13 months old and no bigger than a 6 month old. He contracted whooping cough in the spring while teething, followed by diarrhea, and then the measles when it was thought he would not live. Virginia became very ill the week after her brother died. Brother Armistead has been unwell for 2 months with diarrhea. Concerned about Frank. Powell does not teach at home now; he is employed at an academy 3 miles from home where he teaches languages. Dr. Farrar expects Prince Edward will go to Philadelphia in March because he has a son that will graduate then. Brother Robert might come to visit this winter and if so she might go back with him. Pris sends love. Bettie is very busy and sends love. Miss Lucy's health is bad. Blair is still in Texas.

Thinking of writing Fanny for 10 years but have always out it off. Settled 3 miles west of Sumterville, 15 miles north of Livingston and 8 miles southwest of Gainesville. House is a double log cabin with sheds on both sides. A fine sandy hill is 200 yards from the church and the garden and orchard are between the house and church. Moved an old female school house so as to have 5 rooms beside a dining room, cook room, and store room. Settled here in 1847 when bought 80 acres of land at \$12 ½, 2 years ago bought another 80 at \$10 and this spring bought 100 acres at \$15. Brother-in-law owns half of everything except the last 100 acres in which he owns ¼. He takes care of the farm while Ben takes care of the schoolhouse. Charges \$4 a month and allow them to quit when they choose. 3 children - all boys and the oldest will be 4 next September, the youngest is 3 months. The older children are spoiled rotten. Rarely leaves the house without Willie and his dog Prince and Ben's dog Blue. Only teach 6 hours a day. Live in a good neighborhood where all the people are industrious. The country has been healthy for the last 8 years. At Sumterville there are 2 schools, one for male and one for female. The male school is a military school taught by a Dinwiddian, a graduate of Virginia Military institute. The female school is taught by Mr. Davidson of Petersburg, a grandson of General Butts and graduate of the U.S. Naval School. In Livingston the female teacher, Mr. Brame, was born in Petersburg, and so the Dinwoodie is well represented here. Blair is still in Texas but speaks of coming in the summer.

Youngest boy, 2 ½ years old, died last March 1, 2 months after Mary left us which makes the loss of 3 loved ones in a year and a half. Molly's death was sudden and of an unaccountable sickness. She had been complaining for several weeks of pain in her bowels. Her baby was born August 13th and seemed

to recover relatively quickly, gaining weight and looking healthy in only 2 months. Friend and relative of the doctor was married middle of October. Mary helped with the wedding and attended the parties looking as well as ever. Became involved in religious duties. Longed to see her deceased sister, Carry. Promised her that her children would be taken care of. Sunday before Christmas, she dined with Anne P. and seemed more cheerful. She had dinner with friends and ate some pressed souse which is the supposed immediate reason for her illness. The next morning she complained of excruciating pain and so the Dr. prescribed her medicine and sent for Dr. Linton. She sent for Anne P. at 9 o'clock as she grew worse where she was suffering from intense pain in her bowels and vomiting. Sent for Dr. Papin. She got better the following day, but at about midday she complained of a pain in her side and so she was given a little paregoric under Dr.'s orders. Left her room for a few minutes and when Anne P. returned to give her the prescribed medicine she was breathing very badly and could not be aroused. Called the doctor immediately who thought she had only slept too long and gave her brandy and succeeded in rousing her though she remained cold where she began praying with a stiff tongue, after which she could not be revived. The last words she said were for Lizzie to "rub my hands" By 10 o'clock she was a corpse. The boy contracted scarlet fever on a Thursday and passed away the following Tuesday morning about 9 o'clock. Fanny to go with Betty Lemoine and spend time with her Virginia relations. Went through 7 years in poverty. Received a letter from mother. Thankful that Mr. G. is a changed man and is a constant member of the Episcopal Church. Hugh is a very promising boy and assists Mr. Watt in teaching and so his own education costs nothing. Collects bills and makes nearly enough to cloth himself. Mag is rather rude and wild. Spot is a complete scape grace. He is the only one that goes to school. Fanny teaches Nan and Mag but could not manage Spot. Mary's children are doing well.

Tried for many years to get Brother John to come to Alabama and join B.P. in a school. Contemplated raising money next fall to pay off John's debts in order to get him to Alabama. Would like to help John but doesn't want to injure himself or his family in the process. If Frank comes he will be treated as one of B.P.'s children especially if he is willing to learn a trade. Only teaches from 8-4. Blair is in Texas and pleased with the country there. He is attending to cattle on a 5 year contract. The oldest child, Wm. T., is good looking but it is feared he will give B.P. a lot of trouble. He can spell 2 and 3 letter words and doesn't go to school. Tommy is ugly and not so sprightly but is noble. B.P. is the flower of the flock in looks and generally a good boy who is hard to quiet once he gets started. Robt Hanna is rather large (15 lbs at 14 months) but is sprightly and otherwise healthy. Have 260 acres worth about \$15 per acre. Work 5 hands and keep 2 women and a boy at the house. Made 19 bags of cotton last year which was worth about \$700. School was worth about \$1000. Owe about \$3500 due next winter. Owed about \$1000 and if this year is as profitable as the last, then they will be able to raise \$2500. Expect to sell every negro except 3 and buy a new set. May sell them on credit to get 10% more. Trying to raise grain and stock because cotton is uncertain. May come to Virginia to buy new negroes if he succeeds in selling the ones he has. If this happens he will come and visit Fanny. Corn crop sold at \$1 a bushel. Drought has been severe. The corn crop looks well and has begun to shoot. If there is a good rain once a week for the next 4 weeks the crop will be doubled. If this is the case there will be 50,000 bushels within 5 miles of this place. Finished cleaning wheat and made about 90 bushels. Wheat crop generally good with between 20 & 30 bushels to the acre. Thinks they will be able to sell 100 bushels for \$1. Usually make enough sugar cane to keep the children and negroes chewing all year, but will hardly make seed this year. Wish Fanny could get agriculture friends to get a 1 or 2 of choice white wheat and send it to him in the mail between now and October. Margaret has gone to visit her Aunt who is in bad health. The boys have gone to Sumterville for preaching. Can't believe he is over 40 when he hardly feels 20. Mobile and Ohio Railroad is coming fast and will be 12 or 15 miles by the end of the year. Building a branch off it to Gainesville which will pass within 2 miles. The railroads will have a considerable effect on the price of land. Land is cheaper here than anywhere else. Added a second floor to his home and is now a very comfortable dwelling with 8 rooms and a large room for boarders. Wants Brother John's post office address.

Comment on life in Texas. Writing to Frances in hopes that Sister Ann is with her. No smoke house on property and all eatables are kept in a cabin that is about 8 square feet. No corn crib or stable. Get corn and flour from New Orleans and kill a hog as needed. The stock is fed by the pasture from the Navidad to the Lavaca River. Only 12 cows, last year raised 10 heifer calves and 1 steer calf. 5 mares and fillies, 2 buggy horses and 4 mules and 5 yoke of oxen. Never run more than three plows at a time so that there is always a team able to work. Break land with 2 or 4 yoke of oxen. Work the crop with mules and horses and a single yoke of oxen. No crop last year, only 4 bales of cotton on 50 acres and no corn. Blair goes 8 to 10 days in the cow driving season sleeping outside without taking his boots off, he has made about \$1000 a year. Complains of hardships and wishes to get rid of his contract which is effective 3 more years. Hair and beard almost white and looks 10 years older than Ben, but his health is better here than in Alabama. Frank one of the best cow hands on the range. Immigration here has increased in the last few years, but last year's drought slowed this immigration. Most of the newcomers are planters. Two Prestons of Missouri (Landon and Shaw), kin to the Virginia Prestons, have settled on the Navidad about 5 miles from Ben. Had another daughter last month, so they now have 4 sons and 3 daughter and all are in good health. The newest girl is named Martha Catherine. Try to teach the 5 oldest but they do not like books. Very mild winter. Can get oysters from 20 miles away. Last ham of bacon was from Alabama. Until this year killed deer and turkey but this year they have been scarce. Probable that Texas will declare itself independent and it is doubtful that she will enter into the Southern Confederacy. Hope no black republic will ever rule. State of affairs has made money matters very hard in the South. The Comanche Indians have been coming down on the settlers killing them and stealing everything. Mr. W.B. Grimes started a rancho on the Leona which empties into the Frio. Had 2200 head of cattle and 22 cow horses. The Indians penned 20 of the horses in their own pen close to the house and the two they couldn't open. One they shot and the other they frightened so much that he could not be helped. One started down the Leona to warn the other settlers but the Indians had hid in the gully and when O Neal passed, 40 rose behind him on G's horses and almost caught him because his horse was broke down and has already run 7 miles. If he had run 50 more yards, then they would have had his scalp. They killed 2 men and mangled a young lady so badly they thought she would die. One man they scalped and cut the skin off the bottom of his feet and made him run through the thorns, then skinned his beard off, shot 20 copper spiked arrows into him and then cut them out, picked a hole in the back of his neck, shot him through with a musket ball, cut out his heart, then cleaned off the road and stretched him across it and made 9 marks by the side of him. The

lady was scalped but is still alive. The two men who take care of G's stock told F.M. Flournoy and son killed Woolfork. Woolfork shot four times and stabbed 5 times and Flournoy's son died immediately. Corn is 6 or 7 inches high. Uncle B and family are not home because they went to Texana Friday for preaching. Uncle B joined the Presbyterian Church yesterday. Be at home about 4 days every month from cattle driving.

Sam died. Fell at the battle near Boonsborough, Maryland on Sunday the 14th. Thought to have initially died at Harper's Ferry but he wasn't near Harper's Ferry. General Garnett had fallen in Harper's Ferry and the similarity in the names had caused the confusion. Brother Landon's son, Maurice, who was Sam's

aide, accompanied his remains. He had telegraphed twice but no dispatch was recorded. He had joined the church two years ago and was a consistent and praying Christian.

Sketch of Mary Armistead (Catlett) Jones's life. Happiness until the War. House refuge for soldiers when they were in Gloucester Point and Yorktown. Nanny Garland (Mother's niece) visited wishing she had 10 brothers to join the southern Army, but she only had 2 brothers (1 was killed; he was a Lt. Colonel from the University of Virginia). After war, man in Missouri wrote Nanny saying he found young Garland in Franklin, Tennessee where he gave him a cup of water before he died a short time later. In remembrance of this he also sent a silver cup inscribed with "In Memory of a Cup of Cold Water". Soldier from Georgia died in their home. Her two brothers escaped the war unscathed and lived to be moderately old. People poor after war. Scarcity of food - lived off of corn bread & fried meat. Education was troublesome - father formerly employed teachers for her brothers but once they came of age, her family had to drive 4 miles to brother-in-laws house to be taught by Dr. Griffin (Earl of 'Traquaire'). First great invention she remembers is the sewing machine because it made women's lives easier. After the sewing machine was the telephone which helped to unite all of Tidewater, Virginia. By the time of the telephone, she had lived at her old home (Timberneck which her Grandfather built) for 9 years, where her 4 children were born.

Father's mother was Ann Carter, the granddaughter of King Carter of "Cortoman" on the Rappahannock River. Mother was Fanny Burwell, daughter of Col. Armistead Burwell (direct descendent of Lewis Burwell of Carter's Creek in Gloucester). Powhatan's residence with distinct old chimney directly across creek from her home. Mr. Charles Campbell visited old chimney. Saw gas and electricity introduced to allow women to have small kitchens. Automobile. Flying machine. Wireless telegraph. Radio. Only younger brother, Carter, and she remain of their family. Husband died 7 years before. Has 6 grandchildren. Expressions used by servant. "Uncle" George caught and prepared oysters for her 16th birthday. White mammy was housekeeper who idolized her mother's children and is remembered for her faith in God. Grandmother Ann Walker Carter, married John Catlett, jr. of King William County, Virginia in 1780. Their first daughter was named "Hetty" after a Quaker nurse who nursed John back to health in Philadelphia. Grandfather built 'manor house' along the York River, 4.5 miles above Yorktown. Aunt Hetty married Mr. Benjamin Waller of Williamsburg. Gave miniature to son's wife (married his mother's niece who was her 1st cousin). Father had 7 sisters: Polly married Col. Thruston, Nancy married Field, Matilda married Morris, Lucy married Baytop, Sally married Yates, Martha married Banks, then Thruston. Brother Charles died at age 19. Father inherited all the land of Grandfather. Topaz brooch given to mother by her brother Armistead Burwell. Photocopy of Mss and TMs.
