Woods has made statement towards exculpating Thompson and Williams from charges concerning their handling of building of National Road. "I think Col. Williams conduct in relation to this business cannot well be impeached as he has acted uprightly and in most instances as the charges relate to you they are groundless also. Although such are the facts, yet good grounds for charges against your official conduct do exist." Criticizes Thompson for changing road, and allowing contractor to use logs and brush, for want of firmness and decision, and did not look at a place where he could have saved a spring. Thompson had mentioned in Wheeling that some mystery existed respecting the drafts drawn by Shepherd and Paull causing a suspicion that Woods was concerned in that transaction.

Have gained a most significant victory in the lower house over the Virginia nullifiers. Defeated by one vote. We shall either run Tyler or McCoy for the Senate...we shall not likely rally? Tyler. The west and middle regions are well organized and we can elect him to a certainty..., resolved to put down these southern notions. In Virginia much is to be done in the election of a senator. Rives is with us and if we get Tyler we are safe, at the request of several western members on Thursday last I addressed a letter to Tyler, to know his sentiments on secession and nullification. This evening I send his answer. Gives defense on appointment of directors to Northwestern Bank. Determined about spring election.
